Batten Disease is a rare genetic, neurodegenerative disorder affecting children and young adults. Batten Disease causes a progressive deterioration of the brain and nervous system, leading to an early death. There is no cure at present.

The Batten Disease Family Association (BDFA) is the UK's only dedicated Batten Disease support and research charity. We work to support families and professionals giving care to children and young adults with Batten Disease in communities across the country.

We provide information, support and friendship. We seek to raise awareness of the disease and to facilitate research so that one day a cure will be found.

If you would like to find out more about our work please call Georgette Ward, BDFA Fundraising Officer on **01603 760111** or email: [fundraising@bdfa-uk.org.uk](mailto:fundraising@bdfa-uk.org.uk)

All cards are sold in packs of 10. All card designs have the BDFA logo and contact details printed on each card. The Christmas cards also have printed "With Best Wishes for Christmas and the New Year". The notelets have the BDFA logo and contact details printed on each card and are left blank for your own message.
